Re: PM 1267, PM 1268 and PM 1355

Dear Ron:

I understand via Charlie Smith's letter of November 19th, that you are now handling all of the supercritical extraction cases.

There is an outstanding action in Australia on PM 1268, and I would appreciate your reviewing the action and advising John Bass of Reddie & Grose on the response. There should be copies of all the pertinent information in the file, as these were forwarded to Ken Sonnenfield. The original acceptance date for the application ran out in October of this year, and extension was obtained until June 12, 1991. We must, therefore, move this along as quickly as possible.

I spoke with inventor Harvey Grubbs earlier, and his comments on the references were relayed by telephone to Ken Sonnenfeld. Please call Harvey (804-274-5927) if you need to refresh these notes, and let me know if the file is not complete.

Thanks very much for your assistance.

Sincerely,

Beverly A. Monroe
